RE: Art McAdams' Signal (AKA 'Section 35') lease, Kern Front field  
Request for Additional Data

Mr. Erekat,

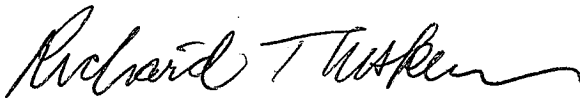

On behalf of Mr. Art McAdams, I am submitting the following additional data that you requested over the phone a few weeks ago to complete the Technical Report that I prepared on the subject lease and sent to the Water Board on June 15, 2015. The three main items requested are: 1. the attached 3 aerial images, showing in various zoomed scales, section/township/range (section lines), the lease boundary, the 5 sumps in question (identified as sumps A, B, C, D, & E, matching Josh's original field inspection report designation), and other related injection facilities, 2. the APN # for the lease in question, which is APN #48302017 (shown on the zoomed-in aerial image), and 3. the dimensions of the 5 sumps, which are A = 73' \* 83', B = 73' \* 86', C = 104' \* 144', D = 6,402 sf, 327' perimeter (not rectangular shape), and E = 37' \* 37'.

As the preparer of this letter, I, Richard Thesken, do solemnly swear that:

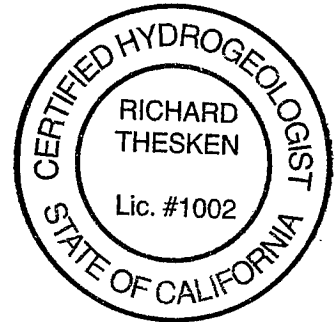

'I certify, under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations'.

I hope that this satisfies your requests to complete the corresponding Technical Report, but if I omitted anything or you need any additional data, please let me know. Thanks.

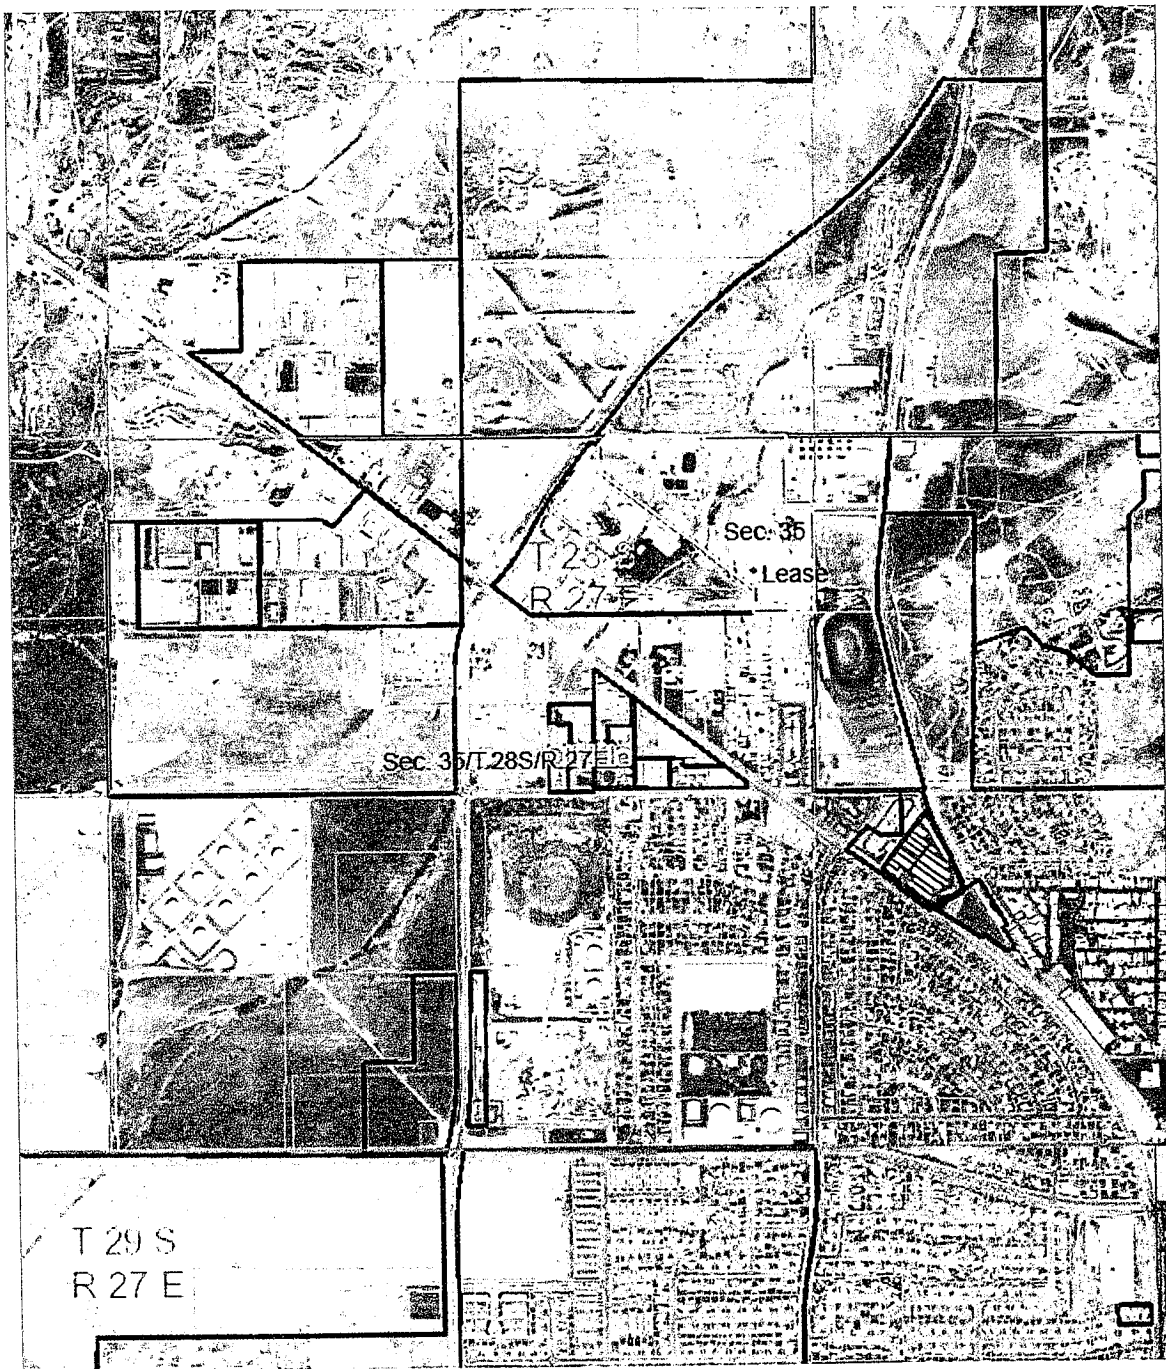

Sincerely,
